D. Bluetooth playback

1. Switch the power to "ON", Bluetooth indicator is on, producing a start-up sound, Bluetooth indicator is flashing rapidly.
2. Turn on your cell phone or Bluetooth device on the Bluetooth function, search for devices in the Bluetooth menu.
3. When "Hiting" appears on the Bluetooth devices list, select "Hiting" establish pairing and connection (if asked for a passkey, enter 0000). When the pairing and connection is successful, it produces a connected tone, and Bluetooth indicator changes to slow flash, the speaker is ready for playing music.
4. When the connection is successful pairing, touch the key

"Play/Pause" three seconds, you can disconnect the current Bluetooth devices, and the indicator is flashing alternately again, the Bluetooth speaker is ready for pairing with the other device.

5. When the connection between the mobile and the speaker is successful, and the speaker is playing music, the music will be stopped when incoming call is reaching and the speaker will play incoming call alert, short touch 'Play/Pause' switch to answer the call, others' speech will be broadcast via the speaker, Short touch 'volume +/-' switch to adjust desire volume for conversation. Short touch 'Play/Pause' switch to hang up the phone. The speaker is automatically restored before playback music.

To reject the incoming call, long touch 'Play/Pause' switch for 2 seconds to reject the incoming call.

To redial the previous call number, short touch 'Play/Pause' switch 2 times for redial the last call .

6. If the pairing is overtime or no flash for indicator light, please repeat step 1 to 3 for re-connection.

E. Audio input mode

1. Please insert 3.5mm audio cable into the audio input port of the product , with MP3, IPOD, cell phone or other audio connections, audio music playback, adjust the audio output volume to achieve the best sound , and the blue indicator is on (instead of flashing).

2. Pls pull out the audio cable to disconnect the devices, the speaker will switch back to the Bluetooth mood , the indicator is flashing again, and the product will automatically pair back with the last device.

F. Power supply

1. Connect DC 5V adapter with the product for power supply and charging the built-in rechargeable lithium battery synchronously, the red power indicator is on. After the full charge , the red indicator is off , and the blue indicator is on. Disconnect the adapter , all the power charging indicators are off.

2. The speaker is powered by the built-in rechargeable battery , without an adapter.

7. If stop use, turn off the power to avoid power loss.
8. The product built-in rechargeable lithium battery, please do not pollute the environment when discarded, try to classify recycling.
9. The product should be used for the first time after the battery is fully charged.

FCC Certification Requirements

Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**
